

These are the friends you can count on,
let them know you appreciate them.
**Say Thank You With
Eversharp Bullet Pens.**

The compact Bullet measures only 3-7/8" closed and opens to a full size 5-1/8" pen.

Personalize with your attendants names or initials.

The Eversharp Astronaut Pressurized Ballpoint Refill meets everyone's writing needs.

These handsome pocket pens are available with a mirror-like chrome finish or a rich black matte finish. Both styles can be engraved to add a special touch.

Originally designed in the 1960s for the use by the astronauts in space, Eversharp's Astronaut Pressurized Refill was created to perform under the most difficult conditions. The refills design uses pressure, not gravity to push the ink through the barrel utilizing an internal balance of pressure, ink consistency, and ballpoint glide.

The Bullet's attractive style and compact size make it the perfect pen for any occasion.

Write on many materials including most glossy surfaces, vinyl, rubber, leather, and wood.

Write at any angle, even upside down.

Write in any weather condition. Keep one in the glove box of your car! No matter how hot or freezing cold it gets, the Pressurized Refill always writes.
